CEYCAT RANGE

The Ceycat formula is matched perfectly for a comfortable and spacious layout, with a reduced carbon footprint in design and manufacturing. Concept ideas steer toward a certain design that is needed in the market.

These concepts look to identify areas of potential for future builds, and this is where Ceycat design and boat building teams are able to combine efforts that ensure an architecturally and structurally efficient design.

Sea Leisure Yachting Group specialises in:

- Tropical Climate Catamarans
- Comfort matched with Performance
- Infused Fiberglass Technology
- Highly customisable catamarans

All catamarans are available in sail and power versions.

CEYCAT 47

Ceycat 47 is designed to accommodate up to 25 passengers and has an open plan for better views. It's ideal for day-cruises and sea leisure activity. The current model is complete with 2 double cabins and a spacious relaxing and dining area.

CEYCAT 53

With Ceycat's large range, sustainability is always at the forefront, merging both comfort and performance from 53 to 55 feet, our range is highly customisable. Ceycat 53 range is available in 4 and 6 cabin versions with the option of adding features such as a jet ski launcher, kayak/SUP storage, bar area and much more.

CEYCAT 55

A new project under development. We decided to redesign the accommodation and self-isolation requirements onboard to incorporate Covid-19, by considering this we adjusted our production mold in such a way to facilitate space onboard. Ceycat 55 new design mold has already started, to ensure all imperatives are met.

Draft	1.15 m
Engine	2 x 53 HP YANMAR + SD
Fuel capacity	2 x 215 litres
Building materials	Laminated Fiberglass Polyester resin and sandwich PVC foam

Sailing in Jaffna, Northern province of Sri Lanka

There are two gifts we should give our children. One is an anchor, the other is Sails..

SKY DECK

The Sky deck provides you with an elevated 360° panoramic view around the boat. It's the best seat for whale watching. Or you can hang out on the supersized loungers to soak up the sunshine and enjoy sailing. Access to the sky bridge is provided by floating stairs leading up from the aft cockpit.

MAIN DECK

The main deck houses a spacious lounge area with a full galley and a navigation corner. The whole deck structure is surrounded with large windows. The roomy cockpit is set at the same height as the lounge and galley.

From her al-fresco dining area to her shaded spaces and netted area on the forward main deck she covers every base for relaxation and entertainment.

There is nothing like lying flat on your back on the deck, alone except for the helmsman aft at the wheel, silence except for the lapping of the sea against the side of the ship. At that time you can be equal to Ulysses and brother to him."

— Errol Flynn

Sunset on the forward bow seat

LOWER DECK

A yacht is a sailing or power vessel used for pleasure, cruising, or racing. Then there is Ceycat, which goes beyond with design on cabins, amenities that accommodate your overnight use.

CEYCAT 53 - 6C

Model	CEYCAT
Builder	BAFF Polymech (Pvt) Ltd.
Architects	Sabrosa Rain
Cabin details	6 cabins
Passengers capacity	12 passengers + 4 crews
Overall Length	15.6 m
Maximum beam	8.4 m
Draft	1.4 m
Engine	Yanmar Inboard, 80HP x 2nos
Fuel capacity	2 x 215 litres
Building materials	Laminated Fiberglass Polyester resin and sandwich PVC foam
Production time	8 months for a new version

We have a Ceycat 53 6 cabins currently in production - to be ready in a few months (power version available).

TOP DECK

The top deck on the Ceycat 53 - 6C includes a lounge area and sunbeds. Access to the Sky bridge is provided by floating stairs leading up from the aft cockpit.

The power to propel the craft is the sail and on a Ceycat is a large white canvas that and is the most important sail used to power the yacht. Electric winches have been placed so that it is easy to control from the helm as with larger catamarans.

The Genoa extending past the mast and overlapping the main sail also managed from the helm, makes easy working with it also simpler.

MAIN DECK

"Our Ceycat formula is the perfect match for a comfortable and spacious layout, but also the reduced carbon footprint. With the industry evolving to greener solutions, there is a lot of time spent discussing being cleaner on the water. Therefore, the batteries during travel and mooring are recharged from solar panels located along the top deck roof, which results in eco-friendly boat design. But the drive for a greener future doesn't stop there and the company is embracing concepts and identifying principles for future builds, where the design and boat building teams can combine efforts that results in the perfect design."

Peace is freedom in tranquility...

Family might be defined as a group of people who are related to each other, but it's more than that on a Ceycat. It's meaningful connection, the experience. It's the incredible bond created onboard..

The cockpit is the heart of the yacht that offers visibility to the aft and sides, and houses the focal point for a place to watch the sunset over dinner. The need for comfort and down-time in your cockpit is the pride place of any owner and crew.

A modern lift provides good protection and backrest comfort. The balance between the height and space and how it works with structure, seating, storage and all the rest.

Sometimes you have to step off the beaten path, for the bigger rewards in life.

LOWER DECK

Life on a catamaran takes place on deck, but when you do wish to relax in the inner hulls. You will notice the cabins are spacious compared with the standard. Ceycat was designed with comfort, elegance and performance in mind, which gives you the ample storage areas and feeling of tranquility while underway.

Decided to let my dreams set sail.

Ceycat has been designed and modernised for tropical locations, equipped with solar panels, desalination units used to make fresh water. The boat is thus completely self-sufficient and will produce enough fresh water and power throughout the entire cruise.

CEYCAT 55 - 8C

The Ceycat 55' - can host 12 to 16 guests in soundly built and comfortable conditions, where all cabins are spacious with an en-suite bathroom as standard. The dining area overlooking the aft of the yacht is a cool outdoor expansive area, that connects seamlessly to the main saloon and bar area. Equipped with a large galley, much storage, and comfortable crew quarters, the design ensures that crew are well looked after. The communication and multimedia equipment features on-board are the latest technology.

The Ceycat 55 - 8C will be launching soon in 2022.
